**Subject:** Proposed Oil Train Project

To Whom It May Concern:

I am a homeowner at 3527 Padaro Lane. I have a beautiful home on the beach that is separated from the train tracks where the proposed oil trains will travel by only a small one lane road.

In the event of an accident, my property and my family would be in the "hit" zone and could suffer severe injuries or even death.

This fact alone causes me massive concern and worry. My beachhouse and the property that I have paid a great deal of money for should not be in anyone's "hit" zone and my use and enjoyment should definitely not be clouded with stress and worry. This could even negatively affect the resale value of my property.

So please let whoever needs to know that I am against such a proposal that might expose us to noise, toxic fumes and even severe injury or death.

Thank you,  
Lisa Siegel
